SHELTERALL® BUILDING & CONSTRUCTION

Shelterall®, with a modular and cost-effective metal-textile construction, meets your storage needs in quarries, asphalt and concrete plants as well as on worksites.

For bulk storage, it will help you to improve your productivity:

- Reduced humidity
- Consistent quality of materials elimination of mixing risks
- Reduction of dust better stock rotation

On your worksites, it will allow you to shelter your machines and big-bags, and improve the working conditions of your employees.

Shelterall® complies with Eurocode EN1990 standards used for designing traditional buildings.

Shelterall® is committed to safety
