

# COVERS ALL YOUR NEEDS

## AGRICULTURE-GRAINS

- Temporary Storage
- Allotment
- Long-term Storage

## SHELTERALL® GRAINS

Storing grains in optimal conditions requires a **protected, ventilated, and waterproof environment**: this is exactly what **SHELTERALL** solutions offer for flat storage, allowing you to control your investment amount and **cost per stored ton**.

Without the need for foundations or permanent ground anchoring, our storage shelters are quick to install, offering great **flexibility and versatility**: allotment, seed storage, fertilizers, big bags, etc.

### Short and long-term storage in optimal conditions

- 1 Quick installation on concrete blocks without foundation
- 2 Waterproof covering membrane
- 3 Coated grille for natural ventilation

Compatible with all mechanical ventilation systems for **controlling and regulating humidity**.

## ADVANTAGES

Cost per stored ton

Optimal waterproofing and ventilation

Height suitable for unloading

Quick installation

Turnkey solution
