

# COVERS ALL YOUR NEEDS

## ENVIRONMENT

- Storage of waste
- Eco-friendly furniture
- Wood
- Contaminated soil
- Waste sorting

Available across the whole Shelterall® range from 8 to 25 m widths and up to 15 m in height assembled on walls.

## SHELTERALL® ENVIRONNEMENT

The SHELTERALL® is a metal-textile construction that is modular, economical and meets all your needs in terms of **waste storage, sorting platforms or composting.**

Our shelters can be erected on concrete block walls offering a **removable solution**, ideal for all your bulk storage such as:

- Eco-friendly furniture/paper/cardboard
- Contaminated soil/clinker/scrap metal
- Recycled wood

Once erected on the ground, the SHELTERALL® solution **creates large sorting spaces.** Its height and its completely free arch can accommodate power shovels without any risk.

SHELTERALL® complies with the EN1990 Eurocode standards used for designing traditional buildings.

SHELTERALL® is committed to safety!

We offer signage on site for the correct use of our products.

### BENEFITS

Large working space

Optimal light levels

Wall resistance calculated

Turnkey solution

Building construction standard
